

SCHOOL DISTRICT ATTENDANCE POLICY

The school district will enforce attendance policies as published in student handbooks in the various schools

Students enrolled in 12th grade who have taken the ACT and received a minimum score of 18 in ACT English and a minimum score of 22 in ACT Mathematics and are on track to graduate high school may be counted as full-time if they are enrolled in a minimum of five courses or the equivalent of five periods per day. Students who qualify for this exception and whose parents or guardians agree, must apply to the high school principal in writing for approval of such modified schedule.

Seniors enrolled in fewer than seven courses must attend classes consecutively throughout the school day. Students are not allowed on campus during periods that they are not enrolled. Transportation will not be provided for students that are not enrolled in all classes.
