

Notice of Activity Vendor False Solicitations

In the past few weeks the high school activities department has become aware of athletic vendors soliciting local businesses to sponsor school athletics and activities by donating money. We have received information from many local businesses that they have been contacted by vendors to fund advertising space for athletic calendars and to purchase extra-curricular items for the high school, such as, footballs, coffee mugs, etc.

Please do not fund such outside vendor activities unless first contacting the school district activities department. Activities at Eureka County High School rarely if anytime participate in such fund raising activities.

If you are contacted by vendors soliciting on behalf of any school employee or activity, please contact the high school principal or my office directly.

Thank you,

Elmer Porter, ECSD Activities Director
